

The FCC is considering making changes to the way FM radio is heard in my community. A new broadcast service known as Low Power FM (LPFM) is being proposed to expand this service in a way that would allow the new LPFM stations to take priority over current FM translator service. My radio station, K-LOVE, is a national and regional broadcaster with many local FM translators. K-LOVE brings a Positive & Encouraging broadcast to not only my community but to other communities across the nation. I don't want to lose my local K-LOVE FM Radio service! K-LOVE serves me by provide good music and God's Word, it encourages me to live a good life and gives me something to look forward to each day. My daughter and husband also listen to K-LOVE. It's the only radio station we WANT to listen too. It would be a horrible thing to replace this station with some ungodly LPFM broadcaster that would bring our community down. I believe that the service provided by K-LOVE is in the public's best interest. There is no worthless garbage played on K-LOVE. Many people are helped each day through K-LOVE ministeries. People are even saved from suicide! Please do not allow K-LOVE to be replaced.
